

UTILITY CHANGE FORM

This is a reminder to switch your utilities to your name if it has not yet been done. This includes electricity, water, trash, cable, phone, gas, and any other bills you might have. You also need to make sure and notify the post office of your move. We would be more than happy to announce your new address to your family and friends if you wish. Just contact us and provide the information and we will take care of the rest. We have listed some numbers that should help facilitate switching your utilities, but do not hesitate to call if the company you desire is not listed.
